

# SYNERGY HOME

LEADER IN :  
*HVAC*

A comfortable home starts with quality air, insulation and power. That's where Synergy Home LLC steps in. With a commitment to whole-home performance, Jamie Clark and his team specialize in HVAC, insulation, solar energy and generators—offering solutions that create healthier, more efficient living spaces.

For Jamie, the key to success isn't just top-tier service—it's people. "Having a company culture that believes in your business model is the secret sauce to achieving great things," he shared. That philosophy is reflected in how Synergy Home treats its employees, as it provides a living wage and fully covered healthcare. The result is low turnover and a dedicated team that delivers exceptional service.

Looking ahead, Jamie explained, "The trades are struggling with a lack of employees, and the companies that will be successful in the coming years will be those best at attracting and retaining the best people." That's why mentorship is at the heart of his leadership. "I grew up with very little, and a lot of the young men and women who work for me have similar backgrounds. I want them to reach their best potential."
